# Darshil Dhandhiya

## Software Engineer

## PROFILE

An enthusiastic and self-motivated Information Technology **student** with a passion for innovation and problem-solving. With learning in programming languages like **Java** and **Python**. I possess strong analytical and critical thinking skills, and am committed to continuous learning to stay ahead in the rapidly evolving IT industry. I am excited to contribute my skills to a dynamic and forward-thinking team, and be part of the next generation of technology leaders.

## PROJECTS

- Login With Firebase Database**  
*"Login with Firebase Database" is a web project that demonstrates proficiency in HTML, CSS, and Firebase by implementing user authentication. It showcases a strong understanding of web development principles, including responsive design and serverless architecture, making it a valuable addition to any web development portfolio.*
- Student Portal**  
*"Student Portal" is a PHP-based web project that provides students with easy access to academic resources such as schedules, news, library books, and results. This project showcases proficiency in back-end web development and highlights the ability to integrate multiple features and functionalities, making it a strong addition to any web development portfolio.*
